I always wanted to be a vet. But then I came into high school and met these two amazing film teachers Ms Seubert and Mr. Gleason and they showed me the world of film. I fell in love with it. It was a way I can express myself and use my creativity to spread awareness and have fun doing so. It was a way I could escape reality and be at peace with my ideas. I then got into a program for 4 years to be able to work in that department. It helped me set up my goals in life. That is for me to finish High School and move into a community college and transfer into a 4 year majoring in film. I want to be able to bring my ideas to life in a movie and be able to bring awareness to certain topics. I wanted to make

Senior Portfolio and Senior Portfolio Defense

Senior Portfolio and Portfolio Defense: Our GMS 12th graders submitted their Senior Portfolio on May 10th on-line this year using the www.portfolium.com website. Their Portfolio is a collection of their student work (assignments, videos, artwork, essays, resume, etc.) while in high school and submitted to one of their 12th grade GMS teachers. The students then chose two of their Portfolio items, or artifacts, to present to a panel for their Senior Portfolio Defense during the week of May 17th. Considering this was the first year we had our students submit their Portfolio digitally and then conducted a full-blown Portfolio Defense, all being done virtually, was absolutely incredible and the seniors did wonderful! Thank you to all the many volunteers who helped make this real-world experience possible for our students.
